

Electricity Plus Program

Your essential electricity cost management made easy with the Electricity Plus Program (EPP). The goal of the program is to Save Your Business More by proactively monitoring and managing your energy costs through specialised services and tools and dedicated account management.

Get exclusive market pricing that enables you to plan better and reduce energy costs and risks. Know when energy prices are in your favor — *Rate Watch™*.

SAVE MORE

Speaks of the full suite of the Electricity Plus Program. Every tool is designed to find savings from the different data points of your energy management system.

REDUCE RISKS

Get exclusive and custom market pricing that enables you to plan better and reduce risks.

USE TIME BETTER

Spend more time on other important aspects of your business. Let the experts do the work for you.

TAKE CONTROL

Make data-driven decisions through regular and proactive business energy reports and reviews.

There are many ways to save on energy costs, but all ways begin with data. EPP Economy is curated for a small usage site that needs basic energy data management & support to Save Their Business More.

Dedicated Account Manager

Focus on your business while we do the work for you. Use your time better and focus on your business success. Remember, you are your business' expert, and your time means money. Save both time and money by using our experience to take care of your energy needs.

Data Warehouse and Management

Data is key to finding savings. We collect, store and give you access to a single view of all your energy data to help you secure the best possible rates and spot any wastage that could drive down your consumption and expenses.

Tariff Impact Review

Plan and manage your budget better. Network charges can take up to 50% of your electricity bill so it's important to stay aware annual tariff changes and its impact on your cost.

Contract Start Up Review

Avoid the stress and risk of bill disputes. When you make changes to your supply arrangements, you may be faced with bill anomalies in your first few bills. Ensure you are accurately billed by having an expert deal with the rigorous and time-consuming reviews and checks.

Annual Review

Drive down your energy cost by seeing the big picture of your usage and demand trend across the year. Turn data into strategies to manage your usage and reduce your costs in the coming year.

EPP Economy

EPP Economy is designed to establish an accurate energy profile for a business. This is the right level of EPP, if you:

- ✓ Want better-priced energy contracts.
- ✓ Want to understand your usage and demand patterns to operate more cost-efficiently.
- ✓ Have multi sites and want to manage all your energy data in a single repository.
