Annual Review	✓
Buying Information - Rate Watch	✓
Quarterly Usage Reporting	✓
Bill Validation	✓
Power Quality Assist	
Demand Alert	
Industry Comparison Reports	

There are many ways to save on energy costs, but all ways begin with data. EPP Economy is curated for a small usage site that needs basic energy data management & support to Save Their Business More.

**Rate Watch**  
Buy when prices are low. The big question is when are prices low? How do you know when prices are low without going to tender. **Worry no more**, Power Choice's Rate Watch. This is a monthly simulated market price to ensure you are in a strategic position to lock in your future electricity contract rates when market prices move in your favor. You now have the secret edge to catch every market move and take advantage when the market presents an opportunity.

**Bill Validation**  
Stop paying more due to incorrect bills. How can you tell you are billed correctly? With an expert account manager, you can easily tell. Our experts use your warehoused data to independently calculate your costs, provide a second opinion and file disputes on your behalf. You have earned the money hard enough to lose it on incorrect bills, let us take care of this for you.

**Data Warehouse and Management**  
Data is key to finding savings. We collect, store and give you access to a single view of all your energy data to help you secure the best possible rates and spot any wastage that could drive down your consumption and expenses.

**Contract Start Up Review**  
Avoid the stress and risk of bill disputes. When you make changes to your supply arrangements, you may be faced with bill anomalies in your first few bills. Ensure you are accurately billed by having an expert deal with the rigorous and time-consuming reviews and checks.

**Quarterly Usage Reporting**  
Stay in the loop, keep costs in control. Get a summarised demand and usage data prepared on a quarterly report to provide you a closer look on your quarterly consumption trends that you may use to adjust activities that could lessen your annual energy expense.

**Dedicated Account Manager**  
Focus on your business while we do the work for you. Use your time better and focus on your business success. Remember, you are your business' expert, and your time means money. Save both time and money by using our experience to take care of your energy needs.

**Tariff Impact Review**  
Plan and manage your budget better. Network charges can take up to 50% of your electricity bill so it's important to stay aware annual tariff changes and its impact on your cost.

**Annual Review**  
Drive down your energy cost by seeing the big picture of your usage and demand trend across the year. Turn data into strategies to manage your usage and reduce your costs in the coming year.
